

## Mejec-PS-C/B

Direct drinking machine, purifying drinking machine

The PS-C/B series is a water purification device specifically developed by Mejec for small-scale applications such as beverage shops (coffee shop, convenience store, milk tea shop, tea houses, etc.) and household use.

### Product Features

**Multistage filtration**  
It can effectively remove impurities, heavy metals, bacteria, and other odors

**Multi-Stage Sterilization**  
It can eliminate 99.99% of bacteria, thus providing safe drinking water

**Touch control**  
Real-time TDS detection, filter life display, and real-time temperature display

**High-Efficiency Water Production**  
Ready to drink instantly, with the freedom to switch between hot, warm, and cold water

**Safety lock**  
The hot water safety lock is designed to prevent accidental operation, ensuring peace of mind for users

**Rapid ice making**  
The ice maker uses purified water to produce clean, slow-melting ice cubes, ensuring your drinks stay cold without off-flavors

### Product parameters

|                            |                 |
|----------------------------|-----------------|
| Product Model              | PS-C/B          |
| Water purification method  | Reverse osmosis |
| Water purification ability | RO 31.2L/h      |
| Water tank capacity        | 7L              |
| Hot Water tank capacity    | 3.5L            |
| Cold Water tank capacity   | 5L              |
| Cold Water temp            | 4-10°C          |
| Hot Water temp             | ≥91°C           |
| Cooler                     | Compressor      |
| Product Dimensions         | 380x460x1247mm  |
| Packing size               | 420x475x1310mm  |
| 20°C/40°C/10°C             | 90/240cets      |
